

ARIANTY NO. 1 PLC

Report and Financial Statements

Year ended 30 September 2020

STRATEGIC REPORT**BUSINESS REVIEW AND PRINCIPAL ACTIVITIES**

Arianty No.1 PLC ('the Company') is a wholly owned subsidiary of Arianty Holdings Limited. The shares in Arianty Holdings Limited are held by Intertrust Capital Markets (UK) Limited under a Declaration of Trust for charitable purposes. The directors regard Paragon Banking Group PLC ('the Group') as the ultimate controlling party.

The Company was set up to provide the funding of mortgage loans acquired by the Group by using a revolving credit facility. Subsequently, the mortgage loans were sold to fellow group companies. During the year the Company operated in the United Kingdom, its principal activities are the provisions of first mortgage loans. There have been no significant changes in the Company's principal activities in the year under review. The directors are not aware, at the date of this report, of any likely major changes in the Company's activities in the next year.

As shown in the Company's profit and loss account on page 8, the Company's net interest income has decreased by 52% (2019: decrease of 61%). This was principally reflecting the decrease in interest received from group companies due to intercompany loans being repaid during the preceding year. The result after tax has reduced from a loss of £1,390,000 to a result of £nil. This was principally due to a decrease in the deferred purchase consideration being charged during the current year.

The balance sheet on page 9 of the Financial Statements shows that the Company's financial position at the year-end is in net assets terms, consistent with the prior year. Details of amounts owed from and to other group companies are shown in notes 14 and 17.

No interim dividend was paid during the year (2019: £1.00 per share). No final dividend is proposed (2019: £nil).

The Group manages its operations on a centralised basis. For this reason, the Company's directors believe that further key performance indicators for the Company are not necessary or appropriate for an understanding of the development, performance or position of the business. The performance of the Group's mortgage lending operation, which includes the Company, is discussed in the Group's Annual Report, which does not form part of this Report.

PRINCIPAL RISKS AND UNCERTAINTIES

The assets of the Company are located entirely in the United Kingdom and its results are therefore impacted by the economic environment within the UK. A material downturn in economic performance could increase the numbers of customers who default on loans and / or cause the values of the properties over which the Company enjoys security to fall.

The UK economy in the current year has been impacted significantly by the effects of the Covid-19 virus. This has caused major economic disruption within the UK and global economy but has also driven governments and regulators to offer unprecedented levels of support to businesses and consumers, aimed at mitigating its impact.

The Company has put contingency plans in place to ensure that it can continue to service its customers and to satisfy its obligations under the funding structure. However, should the pandemic have significant long-term impacts on the UK economy then this would significantly impact the Company's future cash flows and performance.

Together with continuing uncertainty arising the potential impact economic impact of the UK's withdrawal from the European Union, the Covid-19 pandemic has made the long-term economic prospects for the UK and their impacts on the Company much difficult to forecast.

An analysis of the Company's exposure to risk, including financial risk, and the steps taken to mitigate these risks are set out in note 7, a discussion of critical accounting judgements is set out in note 5 and a discussion of critical accounting estimates is set out in note 6.

FUTURE PROSPECTS

After considering the above, the directors have a reasonable expectation that the Company will have adequate resources to continue in operational existence for the foreseeable future, this is further discussed in note 3.

STRATEGIC REPORT (CONTINUED)**BOARD AND STAKEHOLDERS**

The Board of the Company is mindful of its duty to act in good faith and to promote the success of the Paragon Banking Group PLC group of companies (the 'Group') for the benefit of its shareholders and with regard to the interests of all of its stakeholders and, in particular, the interests of the Company's noteholders. The Board confirms that, for the year ended 30 September 2020, it has acted to promote the success of the Company for the benefit of its members as a whole and continues to have due regard to the following matters (as per section 172 of the Companies Act 2006):

- a. The likely consequences of any decision in the long-term;
- b. The interests of the Company's employees;
- c. The need to foster the Company's business relationships with suppliers, customers and others;
- d. The impact of the Company's operations on the community and the environment;
- e. The desirability of the Company maintaining a reputation for high standards of business conduct; and
- f. The need to act fairly as between members of the Company.

As part of the Group, stakeholder engagement, for stakeholder groups where there is substantial common identity between the non-shareholder stakeholders of the Company and of the Group, takes place at a group level and the Company looks to group initiatives for guidance and takes them into account in its decision making. The Company follows Group policies and procedures as mentioned above, including those relating to the fair treatment of customers, standards of business conduct, the environment, the community and other stakeholders. More detail may be found in the Group's 2020 Annual Report and Accounts.

In its decision making the Board of Directors will also have regard to the rights and interests of the holders of the Mortgage Backed Floating Rate Notes in accordance with the transaction documents under which they were issued.

As a securitisation entity the decision-making powers of the Board of Directors are limited so long as the notes remain outstanding. Key policies have been predetermined at the time of issuance and the operational roles have been assigned to third parties with their roles strictly governed by the transaction documents. However, in considering items of business the Board makes autonomous decisions on their own merits, after due consideration of the long-term success of the Company, those factors set out in section 172 of the Companies Act 2006, where relevant, and the stakeholders impacted.

Board meetings are held periodically where the directors consider Company business, including its results and performance. As a special purpose funding vehicle for the Group, the Board also reviews strategy, financial, and operational performance, as well as information covering areas such as key risks and legal and regulatory compliance. This information is presented to the Board through reports sent in advance of each Board meeting and through in person presentations.

More information on the Company's impact on individual stakeholder groups is set out below.

SHAREHOLDERS

The Company has a single shareholder, Arianty Holdings Limited. However, the transaction documents limit this entity to a nominal interest in the risks and rewards of the business of the Company. Those risks and rewards attach to non-equity securities and fall to their holders which are companies within the Group. Hence the Company is considered to be controlled by Paragon Banking Group PLC.

ENVIRONMENT

The Group recognises the importance of its environmental responsibilities, monitors its impact on the environment, and designs and implements policies to reduce any damage that might be caused by the Group's activities. The Company operates in accordance with group policies, which are described in the Group's Annual Report, which does not form part of this Report.

STRATEGIC REPORT (CONTINUED)

EMPLOYEES

The Company has no employees. All operational services are provided by employees of the Group. The Group's employment policies are described in its Annual Report, which does not form part of this Report.

Approved by the Board of Directors

and signed on behalf of the Board

DIRECTORS' REPORT

The directors present their Annual Report prepared in accordance with Schedule 7 to the Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008 and the audited Financial Statements of Arianty No.1 PLC, a company registered in England and Wales with registration no: 03946857, for the year ended 30 September 2020.

DIRECTORS

The directors throughout the year and subsequently were:

R D Shelton

R J Woodman

K G Allen

J P Giles

P H Whitaker

AUDITOR

The directors have taken all reasonable steps to make themselves and the Company's auditor, KPMG LLP, aware of any information needed in preparing the audit of the Annual Report and Financial Statements for the year, and, as far as each of the directors is aware, there is no relevant audit information of which the auditor is unaware.

A resolution for the re-appointment of KPMG LLP as the auditor of the Company is to be proposed at the forthcoming Annual General Meeting.

INFORMATION PRESENTED IN OTHER SECTIONS

Certain information required to be included in a directors' report by the Companies Act 2006 and regulations made there under can be found in the other sections of the Annual Report, as described below. All of the information presented in these sections is incorporated by reference into this Directors' Report and is deemed to form part of this report.

- Commentary on the likely future developments in the business of the Company is included in the Strategic Report.
- A description of the Company's financial risk management objectives and policies, and its exposure to risks arising from its use of financial instruments are set out in note 7 to the accounts.
- Disclosure on any dividends paid during the year is included in the Strategic Report.

Approved by the Board of Directors

and signed on behalf of the Board

**STATEMENT OF DIRECTORS' RESPONSIBILITIES
in relation to Financial Statements**

The directors are responsible for preparing the Annual Report and the Financial Statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). The financial statements are required by law to give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of their profit or loss for that period.

The directors are responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets, for the Company's systems of internal control and for taking reasonable steps for the prevention and detection of fraud and other irregularities and for the preparation of a strategic report and directors' report which comply with the applicable requirements of the Companies Act 2006.

Approved by the Board of Directors and signed on behalf of the Board.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ARIANTY NO. 1 PLC

Opinion

We have audited the Financial Statements of Arianty No. 1 PLC for the year ended 30 September 2020 which comprise the profit and loss account, the balance sheet, statement of movement in equity and the related notes 1 to 19, including the accounting policies in note 5.

In our opinion the Financial Statements:

- give a true and fair view of the state of the company's affairs as at 30 September 2020 and of its loss for the year then ended;
- have been properly prepared in accordance with UK accounting standards, including Financial Reporting Standard 101 – 'Reduced Disclosure Framework'; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the company in accordance with, UK ethical requirements including the FRC Ethical Standard. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going concern

The directors have prepared the financial statements on the going concern basis as they do not intend to liquidate the company or to cease its operations, and as they have concluded that the company's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over its ability to continue as a going concern for at least a year from the date of approval of the financial statements ("the going concern period").

We are required to report to you if we have concluded that the use of the going concern basis of accounting is inappropriate or there is an undisclosed material uncertainty that may cast significant doubt over the use of that basis for a period of at least a year from the date of approval of the financial statements. In our evaluation of the directors' conclusions, we considered the inherent risks to the company's business model and analysed how those risks might affect the company's financial resources or ability to continue operations over the going concern period. We have nothing to report in these respects.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the absence of reference to a material uncertainty in this auditor's report is not a guarantee that the company will continue in operation.

Strategic report and directors' report

The directors are responsible for the strategic report and the directors' report. Our opinion on the financial statements does not cover those reports and we do not express an audit opinion thereon.

Our responsibility is to read the strategic report and the directors' report and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the strategic report and the directors' report;
- in our opinion the information given in those reports for the financial year is consistent with the financial statements; and
- in our opinion those reports have been prepared in accordance with the Companies Act 2006.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF ARIANTY NO. 1 PLC (CONTINUED)

Matters on which we are required to report by exception

Under the Companies Act 2006, we are required to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in these respects.

Directors' responsibilities

As explained more fully in their statement set out on page 5, the directors are responsible for: the preparation of the financial statements and for being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

NOTES TO THE ACCOUNTS**YEAR ENDED 30 SEPTEMBER 2020****1. GENERAL INFORMATION**

Arianty No. 1 PLC ('the Company') is a company domiciled in the United Kingdom and incorporated in England and Wales under the Companies Act 2006 with company number 03946857. The address of the registered office is 51 Homer Road, Solihull, West Midlands, B91 3QJ. The nature of the Company's operations and its principal activities are set out in the Strategic Report.

These financial statements are presented in pounds sterling, which is the currency of the economic environment in which the Company operates.

2. RESTRICTION ON OPERATIONS

The ability of the Company to engage in any activity other than those associated with the purchase, servicing and subsequent securitisation of mortgages is restricted by agreements entered into by the Company with, among others, Mortgage Trust Limited ("MTL") as servicer and Citicorp Trustee Company Ltd as security agent.

Under the terms of the servicing agreement, MTL was appointed to service the mortgages. The business of MTL was transferred to Mortgage Trust Services PLC ("MTS") on 1 October 2003, under the novation agreement then dated, and consequently, since that date, MTS have been the servicer.

3. BASIS OF PREPARATION

The Financial Statements have been prepared in accordance with applicable UK accounting standards. Disclosures have been made in accordance with Financial Reporting Standard 101 – 'Reduced Disclosure Framework' ('FRS 101').

As permitted by FRS 100 – 'Application of Financial Reporting Requirements' ('FRS 100') the Company has applied the measurement and recognition requirements of International Financial Reporting Standards ('IFRS') as adopted by the EU, but makes amendments where necessary in order to comply with the Companies Act 2006 and has set out below where advantage of disclosure exemptions provided by FRS 101 has been taken.

Adoption of new and reviewed reporting standards

In the preparation of these financial statements, the following accounting standards are being applied for the first time.

- IFRS 16 – 'Leases'

This has had no impact upon the balance sheet or the profit and loss account

4. ACCOUNTING POLICIES**Accounting convention**

The Financial Statements are prepared under the historical cost convention.

Going concern

Accounting standards require the directors to assess the Company's ability to continue to adopt the going concern basis of accounting. In performing this assessment, the directors consider all available information about the future, the possible outcomes of events and changes in conditions and the realistically possible responses to such events and conditions that would be available to them. Particular focus is given to the Group's financial forecasts to ensure the adequacy of resources available for the Company to meet its business objectives on both a short term and strategic basis.

NOTES TO THE ACCOUNTS

YEAR ENDED 30 SEPTEMBER 2020

4. ACCOUNTING POLICIES (CONTINUED)

Going concern (continued)

The Group has a formalised process of budgeting, reporting and review. The Group's planning procedures forecast its profitability, capital position, funding requirement and cash flows on a company by company basis. In compiling the most recent forecast, for the period commencing 1 October 2020, particular attention was paid to the potential consequences of Covid-19 on the Group's operations, customers, funding and prospects, both in the short and longer term. This included consideration of a number of different scenarios with impacts of varying duration and severity. In common with the Group's approach to IFRS 9, the economics used in the forecasting process were updated in October in light of the continuing development of the Covid-19 crisis, based on updated external projections. Future business activity was reforecast reflecting the potential impacts of the pandemic on markets and products.

After performing this assessment, the directors concluded that there was a reasonable expectation that the Company will have adequate resources to continue in operational existence for the foreseeable future, and that therefore it was appropriate for them to continue to adopt the going concern basis in preparing the Annual Report and Accounts. For this reason, they continue to adopt the going concern basis in preparing the Financial Statements.

Loans to customers

Loans to customers includes assets accounted for as financial assets. The Company assesses the classification and measurement of a financial asset based on the contractual cash flow characteristics of the asset and its business model for managing the asset. The Company has concluded that its business model for its customer loan assets is of the type defined as 'Hold to collect' by IFRS 9 and the contractual terms of the asset should give rise to cash flows that are solely payments of principal and interest ('SPPI'). Such loans are therefore accounted for on the amortised cost basis.

Loans advanced are valued at inception at the initial advance amount, which is the fair value at that time, inclusive of procurement fees paid to brokers or other business providers and less initial fees paid by the customer. Loans acquired from third parties are initially valued at the purchase consideration paid or payable. Thereafter, all loans to customers are valued at this initial amount less the cumulative amortisation calculated using the Effective Interest Rate ('EIR') method. The loan balances are then reduced where necessary by a provision impairment.

The EIR method spreads the expected net income arising from a loan over its expected life. The EIR is that rate of interest which, at inception, exactly discounts the future cash payments and receipts arising from the loan to the initial carrying amount.

NOTES TO THE ACCOUNTS

YEAR ENDED 30 SEPTEMBER 2020

4. ACCOUNTING POLICIES (CONTINUED)

Impairment of loans and receivables

The carrying values of all loans to customers, whether accounted for under IFRS 9 or IAS 17, are reduced by an impairment provision based on their expected credit loss ('ECL'), determined in accordance with IFRS 9. These estimates are reviewed throughout the year and at each balance sheet date.

All assets are assessed to determine whether there has been a significant increase in credit risk ('SICR') since the point of first recognition (origination or acquisition). Assets are also reviewed to identify any which are 'Credit Impaired'. SICR and credit impairment are identified on the basis of pre-determined metrics including qualitative and quantitative factors relevant to each portfolio, with a management review to ensure appropriate allocation.

Assets which have not experienced an SICR are referred to as 'Stage 1' accounts, assets which have experienced an SICR but are not credit impaired are referred to as 'Stage 2' accounts, while credit impaired assets are referred to as 'Stage 3' accounts.

An impairment allowance is provided on an account by account basis:

- For Stage 1, at an amount equal to 12-month ECL, i.e. the total expected ECL that results from those default events that are possible within 12 months of the reporting date, weighted by the probability of those events occurring; or
- For Stage 2 and 3 accounts, at an amount equal to lifetime ECL, i.e. the total expected ECL that results from any future default events, weighted by the probability of those events occurring.

In establishing an ECL allowance, the Company assesses its probability of default, loss given default and exposure at default for each reporting period, discounted to give a net present value. The estimates used in these assessments must be unbiased and take into account reasonable and supportable information including forward-looking economic inputs.

Within its buy-to-let portfolio the Company utilises a receiver of rent process, whereby the receiver stands between the landlord and tenant and will determine an appropriate strategy for dealing with any delinquency. This strategy may involve the immediate sale of any underlying security or the short or long term letting of the property to cover arrears and principal shortfalls. Such cases are automatically considered to have an SICR, but where a letting strategy is adopted by the receiver, a tenant is in place and arrears are reduced or cleared, the account will not necessarily be considered to be credit impaired. Properties in receivership are eventually either returned to their landlord owners or sold.

For financial accounting purposes, provisions for impairments of loans to customers are held in an impairment allowance account from the point at which they are first recognised. These balances are released to offset against the gross value of the loan when it is written off for accounting purposes. This occurs when standard enforcement processes have been completed, subject to any amount retained in respect of expected salvage receipts. Any further gains from post-write off salvage activity are reported as impairment gains.

Servicing fees

Servicing fees are payable by the Company to MTS under the terms of a servicing agreement. The servicing fee is calculated on the outstanding mortgage portfolio as defined in the servicing agreement. MTS is also entitled to a deferred consideration based on the excess earnings as defined in the mortgage sale agreement.

Cash at bank

Balances shown as cash at bank in the balance sheet comprise demand deposits and short-term deposits with banks with initial maturities of not more than 90 days.

Current tax

Current tax, including UK corporation tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

NOTES TO THE ACCOUNTS

YEAR ENDED 30 SEPTEMBER 2020

4. ACCOUNTING POLICIES (CONTINUED)

Deferred purchase consideration

Under the mortgage sale agreements profits of First Flexible No.5 Plc (“FFL5”), First Flexible No. 6 Plc (“FFL6”), Paragon Mortgages (No. 7) Plc (“PM7”) and Paragon Mortgages (No.8) Plc (“PM8”) are paid to the Company as originator of the loans by way of deferred purchase consideration. In turn, profits of the Company are paid to MTS by way of deferred purchase consideration. Deferred purchase consideration is recognised in the period in which it becomes payable and is paid when sufficient cash resources allow.

Amounts owed by or to group companies

The balances owed by or to other group companies are carried at the current amount outstanding less any provision.

Revenue

The revenue of the Company comprises interest receivable and other income. The accounting policy for the recognition of each element of revenue is described separately within these accounting policies.

Fee and commission income

Other income includes administration fees charged to borrowers, which are credited to the profit and loss account when the related service is performed.

Disclosures

In preparing these financial statements the Company has taken advantage of the exemptions from disclosure provided by FRS 101 in respect of:

- The requirement to produce a cash flow statement and related notes
- Disclosures in respect of transactions with wholly owned subsidiaries
- Disclosures in respect of capital management
- The effects of new, but not yet effective IFRSs
- Disclosures in respect of key management personnel
- Disclosures of transactions with a management entity which provides key management personnel services to the Company

As the consolidated financial statements of Paragon Banking Group PLC, the ultimate parent undertaking of the Company, include equivalent disclosures the Company has also taken advantage of these further exemptions provided by FRS 101:

- Certain disclosures required by IFRS 13 – ‘Fair Value Measurement’
- Certain disclosures required by IFRS 7 – ‘Financial Instruments Disclosures’

The Company presently intends to continue to apply these exemptions in future periods.

NOTES TO THE ACCOUNTS

YEAR ENDED 30 SEPTEMBER 2020

5. CRITICAL ACCOUNTING JUDGEMENTS

The most significant judgements which the directors have made in the application of the accounting policies set out in note 4 relate to:

Significant Increase in Credit Risk ('SICR')

Under IFRS 9, the directors are required to assess where a credit obligation has suffered a Significant Increase in Credit Risk ('SICR'). The directors' assessment is based primarily on changes in the calculated probability of default, but also includes consideration of other qualitative indicators and the adoption of the backstop assumption in the Standard that all cases which are more than 30 days overdue have a SICR, for account types where days overdue is an appropriate measure.

If additional accounts were determined to have an SICR, these balances would attract additional impairment provision and the overall provision charge would be higher.

In determining whether an account has a SICR in the Covid-19 environment the granting of Covid-19 reliefs, including payment holidays and similar arrangements, may mean that a SICR may exist without this being reflected in either arrears performance or credit bureau data. The Group has accepted the advice of UK regulatory bodies that the grant of Covid-19 relief does not, of itself, indicate an SICR, but has carefully considered internal credit and customer data to determine whether there might be any accounts with SICR not otherwise identified by the process.

More information on the definition of SICR adopted is given in note 13.

Definition of default

In applying the impairment provisions of IFRS 9, the directors have used models to derive the probabilities of default. In order to derive and apply such models, it is required to define 'default' for this purpose. The Group's definition of default is aligned to its internal operational procedures. IFRS 9 provides a rebuttable presumption of default when an account is 90 days overdue and this was used as the starting point for this exercise. Other factors include account management activities such as appointment of a receiver or enforcement procedures.

A combination of qualitative and quantitative measures was considered in developing the definition of default.

If a different definition of default had been adopted the expected loss amounts derived might differ from those shown in the accounts.

More information on the Group's definition of default adopted is given in note 13.

Classification of financial assets

The classification of financial assets under IFRS 9 is based on two factors:

- The company's 'business model' – how it intends to generate cash and profit from the assets; and
- The nature of the contractual cash flows inherent in the assets

Financial assets are classified as held at amortised cost, at fair value through other comprehensive income, or at fair value through profit or loss.

For an asset to be held at amortised cost, the cash flows received from it must comprise solely payments of principal and interest ('SPPI'). In effect, this restricts this classification to 'normal' lending activities, excluding arrangements where the lender may have a contingent return or profit share from the activities funded. The Group has considered its products and concluded that, as standard lending products, they fall within the SPPI criteria.

The use of amortised cost accounting is also restricted to assets which a company holds within a business model whose object is to collect cash flows arising from them, rather than seek to profit by disposing of them (a 'Held to Collect' model). The Group's strategy is to hold loan assets until they are repaid or written off. Loan disposals are rare, and the Group does not manage its assets in order to generate profits on sale. On this basis, it has categorised its business model as Held to Collect.

Therefore, the Company has classified its customer loan assets as carried at amortised cost.

NOTES TO THE ACCOUNTS

YEAR ENDED 30 SEPTEMBER 2020

6. CRITICAL ACCOUNTING ESTIMATES

Certain balances reported in the financial statements are based wholly or in part on estimates or assumptions made by the directors. There is, therefore, a potential risk that they may be subject to change in future periods. The most significant of these are:

Impairment losses on loans to customers

Impairment losses on loans are calculated based on statistical models, applied to the present status, performance and management strategy for the loans concerned which are used to determine each loan's PD and LGD.

Internal information used will include number of months arrears, qualitative information, such as possession by a first charge holder on a second charge mortgage or where a buy-to-let case is under the control of a receiver of rent, the receiver's present and likely future strategy for the property (e.g. keeping current tenants in place, refurbish and relet, immediate sale etc).

External information used includes customer specific data, such as credit bureau information as well as more general economic data.

Key internal assumptions in the models relate to estimates of future cash flows from customers' accounts, their timing and, for secured accounts, the expected proceeds from the realisation of the property or other charged assets. These cash flows will include payments received from the customer, and, for buy-to-let cases where a receiver of rent is appointed, rental receipts from tenants, after allowing for void periods and running costs. These key assumptions are based on observed data from historical patterns and are updated regularly based on new data as it becomes available.

In addition, the directors consider how appropriate past trends and patterns might be in the current economic situation and make any adjustments they believe are necessary to reflect current and expected conditions.

The accuracy of the impairment calculations would therefore be affected by unexpected changes to the economic situation, variances between the models used and the actual results, or assumptions which differ from the actual outcomes. In particular, if the impact of economic factors such as employment levels on customers is worse than is implicit in the model then the number of accounts requiring provision might be greater than suggested by the model, while falls in house prices, over and above any assumed by the model might increase the provision required in respect of accounts currently provided. Similarly, if the account management approach assumed in the modelling cannot be adopted the provision required may be different.

In order to provide forward looking economic inputs to the modelling of the ECL, the Company must derive a set of scenarios which are internally coherent. The Company addresses these requirements using four distinct economic scenarios chosen to represent the range of possible outcomes.

The variables are used for two purposes in the IFRS 9 calculations:

- They are applied as inputs in the models which generate PD values, where those found by statistical analysis to have the most predictive value are used
- They are used as part of the calculation where the variable has a direct impact on the expected loss calculation, such as the house price index

The economic variables will also inform assumptions about the Company's approach to account management given a particular scenario.

Effective interest rates

In order to determine the EIR applicable to loans and borrowings an estimate must be made of the expected life of each loan and hence the cash flows relating thereto. For purchased accounts this will involve estimating the likely future performance of the accounts at the time of acquisition. These estimates are based on historical data and reviewed regularly. For purchased accounts historical data obtained from the vendor will be examined. The accuracy of the EIR applied would therefore be compromised by any differences between actual repayment profiles and that predicted, which in turn would depend directly or indirectly on customer behaviour.

NOTES TO THE ACCOUNTS

YEAR ENDED 30 SEPTEMBER 2020

7. FINANCIAL RISK MANAGEMENT

The Company's operations were financed principally by a mixture of share capital and loans from other group companies. Various financial instruments, for example debtors and accruals, arise directly from the Company's operations.

The principal risks arising from the Company's financial instruments are credit risk. The board of the Company's holding company reviews and agrees policies for all companies in the Group managing each of these risks and they are summarised below. These policies have remained unchanged throughout the year and since the year end.

Credit risk

The Company's credit risk is primarily attributable to its loans to customers. The maximum credit risk at 30 September 2020 approximates to the carrying value of loans to customers (note 13). There are no significant concentrations of credit risk due to the large number of customers included in the portfolios.

The acquired secured loans are secured by first charges over residential properties in the United Kingdom. Despite this security, in assessing credit risk an applicant's ability to repay the loan remains the overriding factor in the decision to lend by the originator.

At 30 September 2020 100.0% (2019: 100.0%) of the Company's mortgage loans by value had a loan-to-value ('LTV') ratio of 70% or less. The weighted average LTV was 49.0% (2019: 45.9%). LTV for each account is calculated by comparing the current balance to the most recent valuation of the mortgaged property, indexed as appropriate.

Mortgages Trust Services PLC, a fellow group company continues to administer the mortgages on behalf of Arianty No. 1 PLC and the collections process is the same as that utilised for all companies in the group.

In order to control credit risk relating to counterparties to the Company's financial instruments, the board of the Company's holding company determines on a group basis, which counterparties the group of companies will deal with, establishes limits for each counterparty and monitors compliance with those limits.

8. INTEREST RECEIVABLE - OTHER

	2020	2019
	£000	£000
Interest receivable from group companies	-	18
	<hr/>	<hr/>

9. DIRECTORS AND EMPLOYEES

Directors' fees from the Company during the year is stated in note 10.

The Company had no employees in the current or preceding years. All administration is performed by employees of the Group. The directors of the Company, with the exception of P H Whitaker, are employed by Paragon Finance PLC, and their remuneration is disclosed within the financial statements of that company, which do not form part of this Report.

NOTES TO THE ACCOUNTS

YEAR ENDED 30 SEPTEMBER 2020

10. OPERATING LOSS BEING LOSS ON ORDINARY ACTIVITIES BEFORE TAXATION

	2020	2019
	£000	£000
Operating loss is after charging:		
Servicing fees payable	1	1
Auditor remuneration – audit	5	5
Directors' fees	1	1
Deferred purchase consideration	778	1,955
	<u>778</u>	<u>1,955</u>

Non audit fees provided to the Group are disclosed in the accounts of the parent company and the exemption from disclosure of fees payable to the Company's auditor in respect to non-audit services in these Financial Statements has been taken.

11. TAX ON LOSS ON ORDINARY ACTIVITIES

a) Tax (credit) / charge for the year

	2020	2019
	£000	£000
Current tax		
Corporation tax	-	3
Adjustment in respect of prior periods	(3)	-
Total current tax	<u>(3)</u>	<u>3</u>

b) Factors affecting the tax (credit) / charge for the year

	2020	2019
	£000	£000
Loss before tax	(3)	(1,387)
UK corporation tax at 19% (2019: 19%) based on the loss for the year	(1)	(263)
Effects of:		
Non-deductible expenses	1	266
Prior period credit	(3)	-
Tax (credit) / charge for the year	<u>(3)</u>	<u>3</u>

The standard rate of corporation tax in the UK applicable to the Company in the period was 19.0% (2019: 19.0%), based on currently enacted legislation. During the period, legislation was substantively enacted, reversing the reduction in the tax rate to 17.0% which had been due to come into effect from April 2020. Consequently, temporary differences which had been expected to reverse at a tax rate of 18% in the current year, or 17% in subsequent years, have either reversed or are expected to reverse at a rate of 19%. The impact of this change has been accounted for in the year.

12. FINANCIAL ASSETS

	2020 £000	2019 £000
Loans to customers (note 13)	906	1,008
	906	1,008
	906	1,008

13. IMPAIRMENT PROVISIONS ON LOANS TO CUSTOMERS

This note sets out information on the Company's impairment provisioning under IFRS 9 for the loans to customers balances set out in note 12, loans held at amortised cost, accounted for under IFRS 9, subject to the IFRS 9 impairment requirements.

The disclosures are set out under the following headings:

- Basis of provision
- Impairments by stage and division
- Movements in impairment provision in the period
- Impairments charged to income

Basis of provision

IFRS 9 requires that impairment is evaluated on an expected credit loss ('ECL') basis. ECLs are based on an assessment of the probability of default ('PD') and loss given default ('LGD'), discounted to give a net present value. The estimation of ECL should be unbiased and probability weighted, considering all reasonable and supportable information, including forward looking economic assumptions and a range of possible outcomes. Provision may be based on either twelve month or lifetime ECL, dependant on whether an account has experienced a significant increase in credit risk ('SICR').

Calculation of expected credit loss ('ECL')

For the majority of the Company's loan assets, the ECL is generated using statistical models applied to account data to generate PD and LGD components.

PD on both a twelve month and lifetime basis is estimated based on statistical models for the Company's most significant asset classes. The PD calculation is a function of current asset performance, customer information and future economic assumptions. The structure of the models was derived through analysis of correlation in historic data, which identified which current and historical customer attributes and external economic variables were predictive of future loss. The Company utilised all reasonably available information in its possession for this exercise.

LGD for each account is derived by calculating a value for exposure at the point of default (which will include consideration of future interest, account charges and receipts) and reducing this for security values and costs of recovery. These calculations allow for the Company's potential case management activities. This evaluation includes the potential impact of economic conditions at the time of any future default or enforcement. The derivation of the significant assumptions used in these calculations is discussed below.

In certain asset classes a fully modelled approach is not possible. This is generally where there are few assets in the class, where there is insufficient historical data on which to base an analysis or where certain measures, such as days past due are not useful. In these cases, which represent a small proportion of the total portfolio, alternative approaches are adopted. These rely on internal credit monitoring practices and professional credit judgement.

Notwithstanding the mechanical procedures discussed above, the Company will always consider whether the process generates sufficient provision for particular loans, especially large exposures, and will provide additional amounts as appropriate.

NOTES TO THE ACCOUNTS

YEAR ENDED 30 SEPTEMBER 2020

13. IMPAIRMENT PROVISIONS ON LOANS TO CUSTOMERS (CONTINUED)

Significant Increase in Credit Risk ('SICR')

Under IFRS 9, SICR is not defined solely by account performance, but on the basis of the customer's overall credit position, and this evaluation should include consideration of external data. The Company's aim is to define SICR to correspond, as closely as possible, to that population of accounts which are subject to enhanced administrative and monitoring procedures operationally. The Company assesses SICR in its modelled portfolios primarily on the basis of the relative difference in an account's lifetime PD between origination and the reporting date. The levels of difference required to qualify as an SICR may differ between portfolios and will depend, to some extent, on the level of risk originally perceived and are monitored on an ongoing basis to ensure that this calibrates with actual experience.

It should be noted that the use of the current PD, which includes external factors such as credit bureau data, means that all relevant information in the Company's hands concerning the customers present credit position is included in the evaluation, as will future economic expectations.

In all cases accounts which are more than one month in arrears, where this is a meaningful measure, are considered to have an SICR.

The Company uses arrears multiples as a proxy for days past due, as this measure is commonly used in its arrears reporting. A loan will generally be one month in arrears from the point it is one day past due until it is thirty days past due.

Definitions of default

As the IFRS 9 definition of ECL is based on PD, default must be defined for this purpose. The Company's definitions of default for its various portfolios are aligned to its internal operational procedures and the regulatory definitions of default used internally. In particular the Company's receiver of rent cases are defined as defaulted for modelling purposes as the behaviour of the case after that point is significantly influenced by internal management decisions.

IFRS 9 provides a rebuttable presumption that an account is in default when it is ninety days overdue and this was used as the basis of the Company's definition. A combination of qualitative and quantitative measures were used in developing the definitions. These include account management activities and internal statuses.

Credit Impaired loans

IFRS 9 defines a credit impaired account as one where an account has suffered one or more event which has had a detrimental effect on future cash flows. It is thus a back-ward looking definition, rather than one based on future expectations.

Credit impaired assets are identified either through quantitative measures or by operational status. Designations of accounts for regulatory capital purposes are also taken into account. Assets may also be assigned to Stage 3 if they are identified as credit impaired as a result of management review processes.

During the year the Company revised certain of its default definitions for regulatory purposes. Where appropriate, IFRS 9 definitions have been amended to harmonise with the new definition and hence the staging at 1 October 2018.

As a result of this harmonisation all default cases are considered to be credit impaired, including all receiver of rent cases and all cases with at least one payment more than ninety days overdue, even where such cases are being managed in the expectation of realising all of the carrying balance.

NOTES TO THE ACCOUNTS

YEAR ENDED 30 SEPTEMBER 2020

13. IMPAIRMENT PROVISIONS ON LOANS TO CUSTOMERS (CONTINUED)

IFRS 9 Staging

IFRS 9 calculations and related disclosures require loan assets to be divided into three stages, with accounts which were credit impaired on initial recognition representing a fourth class.

The three classes comprise: those where there has been no SICR since advance or acquisition (Stage 1); those where there has been a SICR (Stage 2); and loans which are impaired (Stage 3).

On initial recognition, and for assets where there has not been an SICR, provisions will be made in respect of losses resulting from the level of credit default events expected in the twelve months following the balance sheet date

Where a loan has experienced an SICR, whether or not the loan is considered to be credit impaired, provisions will be made based on the ECLs over the full life of the loan

For credit impaired assets, provisions will also be made on the basis of ECLs.

Impairments by stage

An analysis of the Company's loan portfolios between the stages defined above is set out below.

	Stage 1	Stage 2 *	Stage 3 *	Total
	£000	£000	£000	£000
30 September 2020				
Gross loan book	903	-	3	906

Impairment provision	-	-	-	-
Net loan book	1,005	-	3	1,008
Coverage ratio	0.00%	0.00%	0.00%	0.00%

* Stage 2 and 3 balances are analysed in more detail below.

NOTES TO THE ACCOUNTS

YEAR ENDED 30 SEPTEMBER 2020

13. IMPAIRMENT PROVISIONS ON LOANS TO CUSTOMERS (CONTINUED)

In terms of the Company's credit management processes, Stage 1 cases will fall within the appropriate customer servicing functions and Stage 2 cases will be subject to account management arrangements. Stage 3 cases will include both those subject to recovery or similar processes and those which, though being managed on a long-term basis, are included with defaulted accounts for regulatory purposes. However, these broad categorisations may vary between different product types.

Analysis of Stage 2 loans

The table below analyses the accounts in stage 2 between those not more than one month in arrears where an SICR has nonetheless been identified from other information and accounts more than one month in arrears, which are automatically deemed to have an SICR.

	< 1 month arrears £000	> 1 <= 3 months arrears £000	Total £000

NOTES TO THE ACCOUNTS

YEAR ENDED 30 SEPTEMBER 2020

13. IMPAIRMENT PROVISIONS ON LOANS TO CUSTOMERS (CONTINUED)

Analysis of Stage 3 loans

The table below analyses the accounts in Stage 3 between accounts in the process of enforcement or where full recovery is considered unlikely ('Realisations' in the table), loans being managed on a long term basis where full recovery is possible but which are considered in default for regulatory purposes and buy-to-let mortgages where a receiver of rent ('RoR') has been appointed by the Company to manage the property on the customer's behalf. RoR accounts in Stage 3 may be fully up-to-date with full recovery possible. These accounts are included in Stage 3 as they are classified as defaulted for regulatory purposes.

	> 3 month arrears £000	RoR managed £000	Realisations £000	Total £000
<i>30 September 2020</i>				
Gross loan book	-	-	-	-
Impairment provision	-	-	-	-
Net loan book	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>
Coverage ratio	<u>0.00%</u>	<u>0.00%</u>	<u>0.00%</u>	<u>0.00%</u>
<i>1 October 2019</i>				
Gross loan book	-	-	-	-

Net loan book	<u>-</u>	<u>-</u>	<u>-</u>	<u>-</u>
Coverage ratio	<u>0.00%</u>	<u>0.00%</u>	<u>0.00%</u>	<u>0.00%</u>

The exposure at default in the calculation shown above for stage 3 accounts is reduced by £nil in respect of the value of security given by customers. The estimated value of the security represents, for each account, the lesser of the valuation estimate and the exposure value in the central economic scenario. Security values are based on the most recent valuation of the relevant property held by the Company, indexed as appropriate.

NOTES TO THE ACCOUNTS

YEAR ENDED 30 SEPTEMBER 2020

13. IMPAIRMENT PROVISIONS ON LOANS TO CUSTOMERS (CONTINUED)

Movements in impairment provision by stage

The movements in the impairment provision calculated under IFRS 9 is set out below.

	2020	2019
	£000	£000
At 1 October 2019	-	-
Recovered in period	-	-
Amounts written off	-	-
At 30 September 2020	<u>-</u>	<u>-</u>

Accounts are considered to be written off for accounting purposes when standard enforcement processes have been completed, subject to any amount retained in respect of expected salvage receipts. This has no effect on the net carrying value, only on the amounts reported as gross loan balances and accumulated impairment provisions. At 30 September 2019 enforceable contractual balances of £nil were outstanding on assets written off in the period. This will exclude those accounts where a full and final settlement was agreed and those where the contractual terms do not permit any further action. Enforceable balances will be kept under review for operational purposes but no amounts will be recognised in respect of such accounts unless further cash is received or there is a strong expectation that it will be.

NOTES TO THE ACCOUNTS

YEAR ENDED 30 SEPTEMBER 2020

13. IMPAIRMENT PROVISIONS ON LOANS TO CUSTOMERS (CONTINUED)

A more detailed analysis of these movements by IFRS 9 stage on a consolidated basis for the year ended 30 September 2020 and 30 September 2019 is set out below.

	£000	£000
Recovered / provided in period	(2)	(3)
Recovery of written off amounts	-	-
Amounts due from group undertakings released in period	-	(443)
	<u>(2)</u>	<u>(446)</u>

Economic impacts

Impairment provision under IFRS 9 is calculated on a forward-looking ECL basis, based on expected economic conditions in multiple internally coherent scenarios. The Company uses four distinct economic scenarios chosen to represent the range of possible outcomes and allow for the impact of economic asymmetry in the calculations.

In developing its economic scenarios, the Company considers analysis from reputable external sources to form a general market consensus which inform its central scenario. These sources included forecasts produced by the Office of Budget Responsibility ('OBR') and the PRA as well as private sector economic research bodies.

The central scenario is the economic forecast used within the Company for planning purposes and represents its expectation of the most likely outcome. The upside and downside scenarios are less likely variants developed from this base case. The final scenario represents a protracted slump and is derived from the Bank of England's annual stress testing scenarios. Each scenario comprises a number of economic parameters and while models for different portfolios may not use all of the variables, the set, as a whole, is defined for the Company and must be consistent.

The economic variables comprising each scenario, and their projected average rates of increase (or decrease) for the first five years of the forecast period are set out below.

30 September 2020

	Central scenario		Upside scenario		Downside scenario		Severe scenario	
	Max %	Min %	Max %	Min %	Max %	Min %	Max %	Min %
Economic driver								
GDP	18.0	(7.6)	18.8	(5.9)	17.8	(15.1)	20.5	(17.9)

18. RELATED PARTY TRANSACTIONS

Transactions with the Mortgage Trust group

Under an agreement entered into on 28 December 2000 with MTL, a company under common control as defined by IAS 24 - 'Related Party Disclosures' ('IAS 24'), the Company bought mortgages intraday which were originated by MTL at net book value. MTL also provided credit and threshold margin support for these mortgages.

The business of MTL was transferred to MTS on 1 October 2003, under the novation agreement then dated, and consequently, since that date, MTS have been the servicer.

At the balance sheet date, the Company had bought £2,641,000 (2019: £2,641,000) of mortgages from MTL. The Company owed £780,000 (2019: £2,331,000) to MTS at the balance sheet date in relation to deferred purchase consideration. During the year the Company paid £2,329,000 (2019: £9,105,000) in relation to deferred purchase consideration. MTS earned £778,000 (2019: £1,603,000) from the Company in relation to deferred purchase consideration.

19. ULTIMATE PARENT UNDERTAKING

The directors consider that the ultimate parent undertaking is Arianty Holdings Limited. The smallest and largest group into which the Company is consolidated is that of Paragon Banking Group PLC, registered in England and Wales.

The shares in Arianty Holdings Limited are held by Intertrust Capital Markets (UK) Limited under a Declaration of Trust for charitable purposes. The directors regard Paragon Banking Group PLC as the ultimate controlling party.

Copies of the consolidated financial statements may be obtained from the Company Secretary, 51 Homer Road, Solihull, West Midlands, B91 3QJ.
